RUSHING TO EL RENO

Forty Trainloads of People Reach There in One Day.

MORE YET TO COME.

Hundreds Left at Kansas City After Purchasing Tickets—Indications Point to a Registration of Two Hundred Thousand.

El Reno, O. T., July 19.—Thirty passenger trains consisting of from 10 to 14 coaches each and overcrowded with people were run into El Reno Thursday from the north. About 10 trainloads arrived from the south during the same time. Twelve hundred people arrived on an excursion from Chicago. One hundred and fifty people were left standing on the platform with tickets in their hands at Kansas City when the last excursion train left that place Wednesday. It is reported that another crowd of several thousand has started from New York. A steady procession of covered wagons still comes in on all wagon roads leading into the city.

The widest estimate as to the total number of registrations on the last day has fallen way short of what it will be. Ten thousand seven hundred and sixty-nine were registered here Thursday and 2000 at Lawton, making the total for both districts up to date 86,789. No one will be surprised if on July 26, the last day, the records show 200,000 names. There are 13,000 homesteads to be drawn for.

Conditions at the postoffice have become unendurable. Men fall asleep in line and often fall after hours of waiting to receive the mail desired because of irregularity of the arrival of mails. Governor Richards wired the department and received an answer stating matters would be regulated at once.

The Two Capital Prizes.

Guthrie, O. T., July 19.—There is no truth in the story telegraphed from El Reno that Oklahoma has taken the half section of land adjoining the townsite of Lawton on the south for school purposes. The official plats on file at the governor's office show this half section subject to homestead entry is the only land near the townsite not allotted. Either of the quarter sections will be worth \$20,000 the day they are filed upon and will go to the lucky settlers drawing numbers one and two in the Lawton district.

Over Sixty-Seven Thousand Registered.

Washington, July 19.—Rapid progress in the Oklahoma land registration is shown in the official telegraphic report received at the interior department. There were 9375 registered at El Reno and 2800 at Fort Sill Wednesday and no one was waiting at either place when the registration closed. This brings the total registration up to 67,344.

St. Paul Selected.

Cripple Creek, Col., July 19.—The Transmississippi Commercial congress yesterday completed the most important of its work, adopted resolutions covering a multitude of subjects and selected St. Paul as the next place of meeting.

The executive committee re-elected E. B. Moses of Great Bend, Kas., chairman. Arthur F. French of Cripple Creek was chosen secretary and George H. Harrison, Jr., of Glasgow, Mo., was re-elected treasurer.

Packers Will Lose Rebate.

Chicago, July 19.—Packers throughout the country will lose hundreds of thousands of dollars each year if a decision announced by Judge Kohlsaat in the United States circuit court is sustained in the higher courts. The court ruled that borax used in preserving meats for shipment does not constitute the manufacture of a new article. For this reason he held that packers are not entitled to a rebate on the tariff duties passed under the act of 1897.

Turks Torturing Servants.

Constantinople, July 19.—Bodies of Turkish troops and Albanians are murdering and torturing inhabitants of the Servian villages in the neighborhood of Metrovitz. The outrages are alleged to be designed to drive out the Servian settlements possessing a modified independence along the great strategic road from Metrovitz to Bourne.

Chinese Decreasing.

Washington, July 19.—A bulletin issued by the census office shows that there has been a decrease of the Chinese population in the United States since 1890 of 17,675, the number now being here is 89,800.

The Japanese increased during the last 10 years from 2039 to 24,300.

Oil Strike in Missouri.

Merwin, Mo., July 19.—A big flow of oil has been struck here. Several barrels of the lubricant have been boiled out and oil is running in streams from the well. This is the third hole sunk, and indications are that it will produce 15 barrels a day. The strike was made at a depth of about 300 feet.

Corn High in Yucatan.

Merida, Yucatan, July 19.—Indian corn is extremely high all over this peninsula and it is practically beyond the reach of the poor people. It is probable much American corn will have to be imported.

Consul Sprague Dead.

Gibraltar, July 19.—Horatio J. Sprague, consul at Gibraltar and the oldest consul in the American service, died here Thursday.

BACK TO MILITARY.

Civil Government Falls in Some of the Philippine Provinces.

Manila, July 19.—The United States civil commission announced that after three months' trial of a provincial form of government in the islands of Cebu and Bohol and the province of Sulu, owing to their incomplete pacification, has been returned to the military authorities, it having been proved that the communities are backward and underserving of civil administration. The provincial and civil officers of these designated districts will continue under the authority of General Chaffee instead of that of Civil Governor Taft as heretofore.

General Chaffee has the power arbitrarily to remove from office any or all provincial or civil officials and to abrogate any section of the law promulgated in these three provinces.

The residents of the island of Cebu have protested, but without success against the relation of that island to military control. Several towns in Cebu are still besieged by the insurgents. The insurrection on the island of Bohol has been renewed and insurgent sentiment in the province of Batangas is strong.

General Chaffee has ordered a battalion of the Thirtieth infantry to begin the occupation of the island of Mindoro.

The province of Batangas will be occupied by the entire Twentieth infantry.

H. Phelps Whitmarsh, governor of Benguet province, who was recently ordered to Manila for investigation of certain charges against him, presented his side of the case to the United States Philippine commission at their executive session. Mr. Whitmarsh denied every charge made against him. The commission's decision has not been announced.

New Cotton Disease.

Valdosta, Ga., July 19.—A new disease is killing cotton in Lowndes county. W. A. Orton, an assistant pathologist of the department of agriculture at Washington, has been here for a week investigating the disease. Mr. Orton says the disease is caused by fungus in the soil which clogs the vessels in the stalk and causes the plant to wilt. The disease can be recognized by cutting across the stem, the heart being black in stalks affected. He says when the fungus once gets into the soil it will live as long as cotton is planted upon that soil. By varying the crops it finally dies out.

Four-story Building Collapsed.

Grand Rapids, Mich., July 19.—The 4-story Luce building collapsed Thursday. Fire broke out in the great heap of debris. The total damage is estimated at \$250,000. Friedman Bros., dry goods and department store and C. F. Blickey, crockery and glassware store, located in the building, were completely wrecked. The only person injured was Lieutenant John Connor of the fire department, who fell from a ladder and sustained injuries that may be fatal.

Triple Execution.

Nashville, July 19.—A triple execution took place here Thursday when three negroes were suspended from the same scaffold. The hanging took place in the jail yard and was witnessed by about 200 people. The condemned were Babe Battice, Duser Thompson and Abe Petway. The latter murdered an old man named Wrenne and the two former killed Cain Miller, a spotter for police here.

Trotting Record Broken.

Detroit, July 19.—Crescens, the chestnut stallion owned and driven by Geo. H. Ketchum of Toledo, in winning the free for all trot in the Detroit Driving club's track at Grosse Point, went the second heat in 2:05 flat, the fastest time ever made in a trotting race. The first heat was made in 2:06 3/4. Charley Horr started, but that was all. He was distanced badly.

Important to Maccabees.

Port Huron, Mich., July 19.—The supreme tent of Knights of the Maccabees has decided that all old members must be rated on the same plan as new members. That is they must pay at the age at which they joined the order. This was done to have old members bear an equitable proportion of the expense of carrying them.

Indiana Prohibitionists.

Richmond, July 19.—The Prohibition convention of Indiana nominated O. C. Rucker of Bedford for governor. The platform vigorously denounced the liquor traffic, declared in favor of honest elections and against division of the public school fund.

Reported Attempt to Overthrow the
French Republic.

SEPT. 14 THE DATE

The Alleged Scheme Is to Place Prince
Louis Napoleon on the Throne.
as Emperor--The Plan Is
of Russian Origin.

London, July 19.--The Pall Mall Ga-
zette publishes a communication from
its Paris correspondent giving circum-
stantial details of an alleged conspiracy
to overthrow the French republic
and install Prince Louis Napoleon as
emperor. The correspondent is assured
that upon Sept. 14, upon which date
the czar intends to promote Prince Louis
to a full generalship in the Russian
army, has been selected as the occasion
for the demonstration to support the
claims of this prince, who is such a
close friend of their Russian majesties
and by all elements opposed to the
present regime. The names of Deron-
lede, Marquis de Lar Saluces and Mar-
cel-Hybert are mentioned as the leading
spirits of the movement, and several
high functionaries of the present gov-
ernment are alleged to be assisting the
movement with funds.

Killed His Mother.

Dexter, Mo., July 19.--Charles Doob
accidentally killed his mother here
while out Turkey hunting. He came to
a thicket where he had trailed a flock
of turkeys and discovered a motion in
the vines that he thought was made by
one of these fowls. He raised his gun
and fired and was horrified a moment
later to see his mother stagger through
the bushes with blood streaming from
her head and face. She expired in her
son's arms before assistance could be
summoned. The woman was picking
berries at the time of the accident. He
only 17 years old and is crazed with
grief.

Unionists to Celebrate.

London, July 19.--The Duke of Marl-
borough is about to appear in a new
role. There will occur at Blenheim
Palace, the duke's seat in Woodstock,
Oxford, on Aug. 10, one of the largest
political demonstrations of recent times.
His object is to celebrate the third
Unionist victory in the election of 3000
delegates from conservative and liberal
Unionist association throughout the
country to be present while the gather-
ing will number in all about 7000. Bal-
four and Chamberlain will make ad-
dresses and the duke of Marlborough,
will preside.

A Stricken Family.

New York, July 19.--James F. Wiley,
55 years old, a resident of this city and
at one time a superintendent on the
Union Pacific railroad, with which road
he was connected for over 30 years, was
struck by an Eighth Avenue electric
car and sustained a fracture of the col-
lar bone. Mr. Wiley's stepfather, Ste-
phen Baker, with whom he lived died
only the day before and in the after-
noon Mr. Wiley received a cable from
the Philippines announcing the death
of his son, James F. Jr., of the army.

Suicide at Dallas.

Dallas, July 19.--M. Scott Galliger,
aged 56 years, was found dead at 939
Bryan street early this morning. The
body was picked up near the cistern in
the back yard. A revolver lay at his
side. A pistol ball had entered just be-
hind the right ear. The deceased had
been in bad health for some time. His
wife died at New Orleans a few months
ago. He was a brother-in-law of Col.
P. B. Hunt and was born in Kentucky,
where his remains will be taken for in-
terment.

Herd of Cattle Condemned.

St. Joseph, Mo., July 19.--Dr. E. J.
Northerton, deputy state veterinary has
condemned a herd of cattle at Fairfax,
where he went to examine some cases
of splenic of Texas fever. He found
that six had died from the disease and
13 more were afflicted. The herd is
owned by E. O. Whitford, and it was
shipped to him from the St. Joseph
stock yards July 6. There are 140 head
in the bunch.

Fred Hart Fatally Injured.

Chicago, July 19.--While riding a
motorcycle Lieutenant Colonel Frederick
B. Hart of the First infantry, Illinois
National Guard, was fatally injured in
a collision with a street car. When
struck Hart was thrown 30 feet in the
air and his skull fractured.

An Actress Seriously Ill.

New York, July 19.--Miss Lillian
Green, the well known actress, is seri-
ously ill in Roosevelt hospital from ty-
phoid fever. Miss Green came to New
York on July 10 from Chicago, where
she had been acting, and the next day
was removed to the hospital.

Three Postmasters Appointed.

Washington, July 19.--The president
has appointed David G. Baldwin post-
master at New Orleans, La., John P.
Walworth, postmaster at Natchez,
Miss., and Henry M. Carson, postmas-
ter at Pilot Point, Tex.

Dallas County Bonds Purchased.

state board of education here the board
purchased \$50,000 Dallas county refund-
ing bonds for the benefit of the perma-
nent school fund.

Encampment Postponed.

Austin, July 19.--The formal opening
of the state encampment was postponed
until tomorrow morning at 6 o'clock on
account of the non-arrival of troops.

STRIKE SITUATION.

No Material Change in the Strike of the
Steel Workers.

Pittsburg, July 19.--While Wellsville,
O., was the pivotal point around which
interest in the great strike was concen-
trated Thursday on account of the large
mass meeting held there, two more
points are on the map now to which all
those interested in the strike are look-
ing. These points are Vandergrift, and
Duncannon, Pa.

At Wellsville the situation practically
remains unchanged, or if there is any
change at all, it is in favor of the mills
going shortly into full operation. Man-
ager Smith claims to have 40 men at
work and he says he will have a com-
plete force by Monday. This may be
a sanguine statement and the Amalga-
mated people express great doubts that
it can be realized.

Developments at Duncannon are
anxiously watched. A delegate from
this city went there Thursday night
with the intention of organizing the
men, and if he succeeds, they will all
go out, which means that every plant
of the American Steel Hoop company
will be idle. The delegate to organize
the men went to Duncannon at the re-
quest of some of the men and this lends
color to the assertion that the Amalga-
mated association will be successful in
closing the mill down.

At Vandergrift the situation is still
favorable to the company, although the
Amalgamated people are not leaving a
stone unturned to get the men to join
them in their efforts, but so far have
not met with any great success, and the
result is the place is now in a state of
great unrest and expectancy.

Locally the situation presented no
new features.

At the upper and lower Union mills
of the Carnegies the men are engaged
at work as usual, and there is no evi-
dence of dissatisfaction, notwithstanding
the persistent rumors of unionizing
these mills and the probability of a sym-
pathetic strike.

Schwab Keeps Mum.

New York, June 19 -- President
Schwab of the United States Steel Cor-
poration has declined again to discuss
for publication the steel strike, a policy
which he has preserved since the con-
flict began. His refusal to talk was
communicated through his secretary,
who would only say the "president has
nothing to say for the present."

EPWORTH LEAGUE.

Three Great Meetings Held on the Sec-
ond Day's Session.

San Francisco, July 19.--The second
day of the international convention of
the Epworth League was marked by
cool, pleasant weather and increased at-
tendance, particularly of local residents.
Greatest attraction of the services was
at Mechanics Pavilion with its long list
of prominent speakers, good music by
the large choir and the great pipe or-
gans with attractions of elaborate dis-
plays of California products.

The Alhambra theater and Metropoli-
tan Temple meetings were attended by
as many delegates and residents as
could find accommodations and the en-
thusiasm was just as great as in the
larger buildings. The programmes at
each of the three meetings were most
notable and interesting ones.

The visitors were astir early this
morning and thousands attended the
sunrise prayermeetings held at Grace,
Central and First Methodist Episcopal
churches. The interest and enthusiasm
of the Epworth League delegates seem
to grow as the convention progressed
and many declared the present gather-
ing the greatest the order ever has
held.

Happy old age

Many women who have enjoyed good
health all their life begin to fade when they
reach the age of forty-four. They grow
nervous and irritable and suffer with sick-
headaches. Their livers are torpid, their
digestion is impaired and their bowels are
irregular. They are experiencing the
"change of life." And it is not strange that
the cessation of the menstrual habit after
thirty years operation should disturb the
system and tax the strongest constitution.
This trying period has no terror for a
woman who uses Wine of Cardui. It builds
up her strength and prepares her for the
ordeal. When the change of life is not
safely passed, a woman quickly becomes an
invalid. Slumbering disease germs are
given increased activity and they appear in
aggravated form. If you take Wine of
Cardui regularly when approaching the
change of life you will be assured better
health than you have ever enjoyed before.
A happy old age and restful calm will be
your reward. Mrs. Campbell was cured
after suffering three years with "change
of life." Theodore's Black-Draught, the
companion medicine of Wine of Cardui,
assimilates with it perfectly, curing
digestive liver and kidney affections,
and throwing impurities and disease
germs out of the system. Both working
together make a well and happy woman.

I have recommended your Wine of
Cardui and Theodore's Black-Draught

to be. I have been suffering three years with the "change of life," and I did
not get anything that would do me any good until I tried your medicines. I give
thanks to Wine of Cardui and you, for it relieved me. Mrs. D. H. CAMPBELL.

To Whom it May Concern.

We find upon investigation that some of our patrons turn their water on at 4 or 5 o'clock each evening and permit the water to run until 9 or 10 o'clock at night, and frequently all night, causing a useless and extravagant waste, for which they do not pay and the company cannot afford to lose, and frequently cause a great deal of inconvenience to those who do not abuse their privilege. Some parties waste more water in one night than they pay for a month's service. The rules require the hose to be held when the water is turned on and cut off when through and under no circumstances be permitted to run when not held. We will cut off the service of those who abuse their privilege and no questions will be asked from this date. Call at office and get copy of rules.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." FAMOUS JESUIT DEAD.

Father Cardella Dies at New York After Long Service.

New York, July 19.—Father Phillips Cardella, one of the Jesuit Brotherhood, and whose career as a priest has been somewhat picturesque, is dead. He was found unconscious on the floor of St. Francis Xavier college in this city and taken to St. Vincent's hospital where he died without recovering consciousness. He was connected with St. Francis Xavier church and had supervision of the convent of Mount St. Vincent. Father Cardella came from a prominent family in Italy. When 15 years old, in 1846, with his brother who afterward became famous in Rome, he entered the Jesuit order. He spent several years in study and after his ordination taught ethics, scripture and moral theology.

When the Jesuit brethren were expelled from Italy, Father Cardella first went to Spain, where many of the expelled priests took refuge, and after becoming thoroughly familiar with the language, went to South America, where his order was obtaining a foothold. He took a leading part in establishing many Jesuit institutions, a labor fraught with much danger in revolutionary times. Then he went to Mexico, where he continued his work, and finally came to New York 20 years ago.

WILL HOLD MORRO CASTLE.

United States Will Keep and Man Cuba's Most Formidable Port.

New York, July 19.—In addition to the other bases of supplies demanded in the Platt amendment, it is the intention of the administration to permanently retain Morro Castle, overlooking the harbor of Havana. This the Washington correspondent of The World, announces upon the highest authority. It is the opinion, says The World special, to occupy, control and defend the stronghold with United States troops after the government of the island has been handed over to the Cubans.

The plan is to equip the fortress with modern artillery in order that Cuba may be assisted in defending herself against outside interference and also that the United States may thus have guarantee against failure on the part of the Cuban government to carry out its pledges and the terms of the treaty now in course of preparation as between this country and Cuba. Under this treaty the retention of the fort is provided for.

Gold in the Mint Counted.

San Francisco, July 19.—The work of counting the gold coin in the mint here has been completed by experts in charge. The amount inspected and weighed was \$47,140,000. The coin was found intact to the dollar and now has been checked up three times, by as many different sets of men, so there is no possibility of error. The completion of the count sets at rest the theory that a recent shortage of \$30,000 at the mint was the result of a miscount. Nothing whatever was disclosed by secret service agents or Superintendent Leach relative to search for the thief.

Killed His Classmate.

Brattleboro, Vt., July 19.—Morton Star Cressy of Hartford, Conn., shot and killed his friend and classmate at Yale and Harvard law schools, Sidney Bristol, of Battle Creek, Mich., early this morning in the bedroom at the home of Cressy's grandmother, Mrs. P. Starr, in this town. It is believed Bristol, who came here Thursday and was invited by Cressy to stay over night, while walking in his sleep, was taken for a burglar.

MORE RAIN FELL.

Parts of Missouri, Kansas and the Territory Soaked.

Kansas City, July 19.—Good rains following those of Wednesday, fell during Thursday in many places in the southwest, and still more is promised. The area covered was principally in southwestern Missouri, central and southern Kansas and in the central part of the Indian and Oklahoma country. The heaviest fall was in Sedgewick county, in which Wichita is situated and where nearly 2½ inches fell. The rains here increased the prospects of half a crop of corn and went further toward making good pasturage a certainty. However, but little rain is reported in northern and western Kansas and some points are still suffering a drought that has lasted from four to eight weeks.

The rain in Oklahoma covered a large area in the vicinity of El Reno, and brought to an end the drought that has parched that country for more than a month.

This is a trial shipment and promises to open up a new market for this useful article. Boys Played Highwaymen.

San Antonio, July 19.—Gerald Kemp Hall, aged 13, and Walter Klein, aged 11, cousins, were playing "highwaymen" at the former's home, the former with a pistol and the latter with a rifle, when Klein, not knowing his gun was loaded, pointed it at his companion and pulled the trigger. RUSHING TO EL RENO

Forty Trainloads of People Reach There in One Day.

MORE YET TO COME.

Hundreds Left at Kansas City After Purchasing Tickets—Indications Point to a Registration of Two Hundred Thousand.

El Reno, O. T., July 19.—Thirty passenger trains consisting of from 10 to 14 coaches each and overhauled with people were run into El Reno Thursday from the north. About 10 trainloads arrived from the south during the same time. Twelve hundred people arrived on an excursion from Chicago. One hundred and fifty people were left standing on the platform with tickets in their hands at Kansas City when the last excursion train left that place Wednesday. It is reported that another crowd of several thousand has started from New York. A steady procession of covered wagons still comes in on all wagon roads leading into the city.

The widest estimate as to the total number of registrations on the last day has fallen way short of what it will be. Ten thousand seven hundred and sixty-nine were registered here Thursday and 2000 at Lawton, making the total for both districts up to date 36,769. No one will be surprised if on July 26, the last day, the records show 200,000 names. There are 13,000 homesteads to be drawn for.

Conditions at the postoffice have become unendurable. Men fall asleep in line and often fall after hours of waiting to receive the mail desired because of irregularity of the arrival of mails. Governor Richards wired the department and received an answer stating matters would be regulated at once.

The Two Capital Prizes.

Guthrie, O. T., July 19.—There is no truth in the story telegraphed from El Reno that Oklahoma has taken the half section of land adjoining the townsite of Lawton on the south for school purposes. The official plats on file at the governor's office show this half section subject to homestead entry is the only land near the townsite not allotted. Either of the quarter sections will be worth \$20,000 the day they are filed upon and will go to the lucky settlers drawing numbers one and two in the Lawton district.

Over Sixty-Seven Thousand Registered.

Washington, July 19.—Rapid progress in the Oklahoma land registration is shown in the official telegraphic report received at the interior department. There were 9375 registered at El Reno and 2800 at Fort Sill Wednesday and no one was waiting at either place when the registration closed. This brings the total registration up to 67,344.

St. Paul Selected.

Cripple Creek, Col., July 19.—The Transmississippi Commercial congress yesterday completed the most important of its work, adopted resolutions covering a multitude of subjects and selected St. Paul as the next place of meeting.

The executive committee re-elected E. B. Moses of Great Bend, Kas., chairman. Arthur F. French of Cripple Creek was chosen secretary and George H. Harrison, Jr., of Glasgow, Mo., was re-elected treasurer.

Packers Will Lose Rebate.

Chicago, July 19.—Packers throughout the country will lose hundreds of thousands of dollars each year if a decision announced by Judge Kohlsaat in the United States circuit court is sustained in the higher courts. The court ruled that borax used in preserving meats for shipment does not constitute the manufacture of a new article. For this reason he held that packers are not entitled to a rebate on the tariff duties passed under the act of 1897.

Turks Torturing Servians.

Constantinople, July 19.—Bodies of Turkish troops and Albanians are murdering and torturing inhabitants of the Servian villages in the neighborhood of Metrovitza. The outrages are alleged to be designed to drive out the Servian settlements possessing a modified independence along the great strategic road from Metrovitza to Bourne.

Chinese Decreasing.

Washington, July 19.—A bulletin issued by the census office shows that there has been a decrease of the Chinese population in the United States since 1890 of 17,675, the number now being here is 89,800.

The Japanese increased during the last 10 years from 2039 to 24,300.

Oil Strike in Missouri.

Merwin, Mo., July 19.—A big flow of oil has been struck here. Several barrels of the lubricant have been boiled out and oil is running in streams from the well. This is the third hole sunk, and indications are that it will produce 15 barrels a day. The strike was made at a depth of about 200 feet.

Corn High in Yucatan.

Merida, Yucatan, July 19.—Indian corn is extremely high all over this peninsula and it is practically beyond the reach of the poor people. It is probable much American corn will have to be imported.

Consul Sprague Dead.

Gibraltar, July 19.—Horatio J. Sprague, consul at Gibraltar and the oldest consul in the American service, died here Thursday.

BACK TO MILITARY.

Civil Government Falls in Some of the Philippine Provinces.

Manila, July 19.—The United States civil commission announced that after three months' trial of a provincial form of government in the islands of Cebu and Bohol and the province of Batangas, control of these districts, owing to their incomplete pacification, has been returned to the military authorities, it having been proved that the communities are backward and underserving of civil administration. The provincial and civil officers of these designated districts will continue under the authority of General Chaffee instead of that of Civil Governor Taft as heretofore.

General Chaffee has the power arbitrarily to remove from office any or all provincial or civil officials and to abrogate any section of the law promulgated in these three provinces.

The residents of the island of Cebu have protested, but without success against the relation of that island to military control. Several towns in Cebu are still besieged by the insurgents. The insurrection on the island of Bohol has been renewed and insurgent sentiment in the province of Batangas is strong.

General Chaffee has ordered a battalion of the Thirtieth infantry to begin the occupation of the island of Mindoro. The province of Batangas will be occupied by the entire Twentieth infantry.

H. Phelps Whitmarsh, governor of Benguet province, who was recently ordered to Manila for investigation of certain charges against him, presented his side of the case to the United States Philippine commission at their executive session. Mr. Whitmarsh denied every charge made against him. The commission's decision has not been announced.

New Cotton Disease.

Valdosta, Ga., July 19.—A new disease is killing cotton in Lowndes county. W. A. Orton, an assistant pathologist of the department of agriculture at Washington, has been here for a week investigating the disease. Mr. Orton says the disease is caused by fungus in the soil which clogs the vessels in the stalk and causes the plant to wilt. The disease can be recognized by cutting across the stem, the heart being black in stalks affected. He says when the fungus once gets into the soil it will live as long as cotton is planted upon that soil. By varying the crops it finally dies out.

Four-Story Building Collapsed.

Grand Rapids, Mich., July 19.—The 4-story Luce building collapsed Thursday. Fire broke out in the great heap of debris. The total damage is estimated at \$250,000. Friedman Bros., dry goods and department store and C. F. Blickey, crockery and glassware store, located in the building, were completely wrecked. The only person injured was Lieutenant John Connor of the fire department, who fell from a ladder and sustained injuries that may be fatal.

Triple Execution.

Nashville, July 19.—A triple execution took place here Thursday when three negroes were suspended from the same scaffold. The hanging took place in the jail yard and was witnessed by about 200 people. The condemned were Babe Battice, Duser Thompson and Abe Petway. The latter murdered an old man named Wrenne and the two former killed Cain Miller, a spotter for police here.

Trotting Record Broken.

Detroit, July 19.—Crescents, the chestnut stallion owned and driven by Geo. H. Ketchum of Toledo, in winning the free for all trot in the Detroit Driving club's track at Grosse Point, went the second heat in 2:05 flat, the fastest time ever made in a trotting race. The first heat was made in 2:06 3/4. Charley Herr started, but that was all. He was distanced badly.

Important to Maccabees.

Port Huron, Mich., July 19.—The supreme tent of Knights of the Maccabees has decided that all old members must be rated on the same plan as new members. That is they must pay at the age at which they joined the order. This was done to have old members bear an equitable proportion of the expense of carrying them.

Indiana Prohibitionists.

Richmond, July 19.—The Prohibition convention of Indiana nominated O. C. Rucker of Bedford for governor. The platform vigorously denounced the liquor traffic, declared in favor of honest elections and against division of the public school fund.

Reported Attempt to Overthrow the
French Republic.

SEPT. 14 THE DATE

The Alleged Scheme Is to Place Prince
Louis Napoleon on the Throne.
as Emperor--The Plan Is
of Russian Origin.

London, July 19.--The Pall Mall Ga-
zette publishes a communication from
its Paris correspondent giving circum-
stantial details of an alleged conspiracy
to overthrow the French republic
and install Prince Louis Napoleon as
emperor. The correspondent is assured
that upon Sept. 14, upon which date
the czar intends to promote Prince Louis
to a full generalship in the Russian
army, has been selected as the occasion
for the demonstration to support the
claims of this prince, who is such a
close friend of their Russian majesties
and by all elements opposed to the
present regime. The names of Deron-
lede, Marquis de Lar Saluces and Mar-
cel-Habert are mentioned as the leading
spirits of the movement, and several
high functionaries of the present gov-
ernment are alleged to be assisting the
movement with funds.

Killed His Mother.

Dexter, Mo., July 19.--Charles Doob
accidentally killed his mother here
while out Turkey hunting. He came to
a thicket where he had trailed a flock
of turkeys and discovered a motion in
the vines that he thought was made by
one of these fowls. He raised his gun
and fired and was horrified a moment
later to see his mother stagger through
the bushes with blood streaming from
her head and face. She expired in her
son's arms before assistance could be
summoned. The woman was picking
berries at the time of the accident. He
only 17 years old and is crazed with
grief.

London, July 19.--The Duke of Marl-
borough is about to appear in a new
role. There will occur at Blenheim
Palace, the duke's seat in Woodstock,
Oxford, on Aug. 10, one of the largest
political demonstrations of recent times.
Its object is to celebrate the third
Unionist victory in the election of 3000
delegates from conservative and liberal
Unionist association throughout the
country to be present while the gather-
ing will number in all about 7000. Bal-
four and Chamberlain will make ad-
dresses and the duke of Marlborough,
will preside.

A Stricken Family.

New York, July 19.--James F. Wiley,
55 years old, a resident of this city and
at one time a superintendent on the
Union Pacific railroad, with which road
he was connected for over 30 years, was
struck by an Eighth Avenue electric
car and sustained a fracture of the col-
lar bone. Mr. Wiley's stepfather, Ste-
phen Baker, with whom he lived died
only the day before and in the after-
noon Mr. Wiley received a cable from
the Philippines announcing the death
of his son, James F. Jr., of the army.

Suicide at Dallas.

Dallas, July 19.--M. Scott Galliger,
aged 56 years, was found dead at 939
Bryan street early this morning. The
body was picked up near the cistern in
the back yard. A revolver lay at his
side. A pistol ball had entered just be-
hind the right ear. The deceased had
been in bad health for some time. His
wife died at New Orleans a few months
ago. He was a brother-in-law of Col.
P. B. Hunt and was born in Kentucky,
where his remains will be taken for in-
terment.

Herd of Cattle Condemned.

St. Joseph, Mo., July 19.--Dr. E. J.
Northerton, deputy state veterinary has
condemned a herd of cattle at Fairfax,
where he went to examine some cases
of splenic of Texas fever. He found
that six had died from the disease and
13 more were afflicted. The herd is
owned by E. O. Whitford, and it was
shipped to him from the St. Joseph
stock yards July 6. There are 140 head
in the bunch.

Fred Hart Fatally Injured.

motorcycle Lieutenant Colonel Frederick
B. Hart of the First infantry, Illinois
National Guard, was fatally injured in
a collision with a street car. When

An Actress Seriously Ill.

New York, July 19.--Miss Lillian
Green, the well known actress, is seri-
ously ill in Roosevelt hospital from ty-
phoid fever. Miss Green came to New
York on July 10 from Chicago, where
she had been acting, and the next day
was removed to the hospital.

has appointed David G. Baldwin post-
master at New Orleans, La., John P.
Walworth, postmaster at Natchez,

Dallas County Bonds Purchased.

state board of education here the board
purchased \$50,000 Dallas county refund-
ing bonds for the benefit of the perma-
nent school fund.

Encampment Postponed.

Austin, July 19.--The formal opening
of the state encampment was postponed
until tomorrow morning at 6 o'clock on
account of the non-arrival of troops.

STRIKE SITUATION.

No Material Change in the Strike of the
Steel Workers.

Pittsburg, July 19.--While Wellsville,
O., was the pivotal point around which
interest in the great strike was concen-
trated Thursday on account of the large
mass meeting held there, two more
points are on the map now to which all
those interested in the strike are look-
ing. These points are Vandergrift, and
Duncannon, Pa.

At Wellsville the situation practically
remains unchanged, or if there is any
change at all, it is in favor of the mills
going shortly into full operation. Man-
ager Smith claims to have 40 men at
work and he says he will have a com-
plete force by Monday. This may be
a sanguine statement and the Amalga-
mated people express great doubts that
it can be realized.

Developments at Duncannon are
anxiously watched. A delegate from
this city went there Thursday night
with the intention of organizing the
men, and if he succeeds, they will all
go out, which means that every plant
of the American Steel Hoop company
will be idle. The delegate to organize
the men went to Duncannon at the re-
quest of some of the men and this lends
color to the assertion that the Amalga-
mated association will be successful in
closing the mill down.

At Vandergrift the situation is still
favorable to the company, although the
Amalgamated people are not leaving a
stone unturned to get the men to join
them in their efforts, but so far have
not met with any great success, and the
result is the place is now in a state of
great unrest and expectancy.

Locally the situation presented no
new features.

At the upper and lower Union mills
of the Carnegies the men are engaged
at work as usual, and there is no evi-
dence of dissatisfaction, notwithstanding
the persistent rumors of unionizing
these mills and the probability of a syn-
pathetic strike.

Schwab Keeps Mum.

New York, June 19 -- President
Schwab of the United States Steel Cor-
poration has declined again to discuss
for publication the steel strike, a policy
which he has preserved since the con-
flict began. His refusal to talk was
communicated through his secretary,
who would only say the "president has
nothing to say for the present."

EPWORTH LEAGUE.

Three Great Meetings Held on the Sec-
ond Day's Session.

San Francisco, July 19.--The second
day of the international convention of
the Epworth League was marked by
cool, pleasant weather and increased at-
tendance, particularly of local residents.
Greatest attraction of the services was at
Mechanics Pavillion with its long list
of prominent speakers, good music by
the large choir and the great pipe or-
gans with attractions of elaborate dis-
plays of California products.

The Alhambra theater and Metropol-
itan Temple meetings were attended by
as many delegates and residents as
could find accommodations and the en-
thusiasm was just as great as in the
larger buildings. The programmes at
each of the three meetings were most
notable and interesting ones.

The visitors were astir early this
morning and thousands attended the
sunrise prayermeetings held at Grace,
Central and First Methodist Episcopal
churches. The interest and enthusiasm
of the Epworth League delegates seem
to grow as the convention progressed
and many declared the present gather-
ing the greatest the order ever has held.

Happy old age.

Many women who have enjoyed good
health all their life begin to fade when they
reach the age of forty-four. They grow
nervous and irritable and suffer with sick-
headaches. Their livers are torpid, their
digestion is impaired and their bowels are
irregular. They are experiencing the
"change of life." And it is not strange that
the cessation of the menstrual habit after
thirty years operation should disturb the
system and tax the strongest constitution.
This trying period has no terror for a
woman who uses Wine of Cardui. It builds
up her strength and prepares her for the
 ordeal. When the change of life is not
safely passed, a woman quickly becomes an
invalid. Slumbering disease germs are
given increased activity and they appear in
aggravated form. If you take Wine of
Cardui regularly when approaching the
change of life you will be assured better
health than you have ever enjoyed before.
A happy old age and restful calm will be
your reward. Mrs. Campbell was cured
after suffering three years with "change
of life." Theodor's Black-Draught, the
companion medicine of Wine of Cardui,
assimilates with it perfectly, curing
digestive liver and kidney affections,
and throwing impurities and disease
germs out of the system. Both working
together make a well and happy woman.

McELREE'S Wine of Cardui

YOUNGS, Laurens Co., S. C., Sept. 22, 1899.

I have recommended your Wine of
Cardui and Theodor's Black-Draught
to several of my lady friends, and I can
say they are what you recommend them
to be. I have been suffering three years
with the "change of life," and I did
not get anything that would do me any good
until I tried your medicine. I give
thanks to Wine of Cardui and you, for it
relieved me. Mrs. D. H. CAMPBELL.

To Whom it May Concern.

We find upon investigation that some of our patrons turn their water on at 4 or 5 o'clock each evening and permit the water to run until 9 or 10 o'clock at night, and frequently all night, causing a useless and extravagant waste, for which they do not pay and the company cannot afford to lose, and frequently cause a great deal of inconvenience to those who do not abuse their privilege. Some parties waste more water in one night than they pay for a month's service. The rules require the hose to be held when the water is turned on and cut off when through and under no circumstances be permitted to run when not held. We will cut off the service of those who abuse their privilege and no questions will be asked from this date. Call at office and get copy of rules.

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. FAMOUS JESUIT DEAD.

Father Cardella Dies at New York After Long Service.

New York, July 19.—Father Phillips Cardella, one of the Jesuit Brotherhood, and whose career as a priest has been somewhat picturesque, is dead. He was found unconscious on the doorstep of St. Francis Xavier college in this city and taken to St. Vincent's hospital where he died without recovering consciousness. He was connected with St. Francis Xavier church and had supervision of the convent of Mount St. Vincent. Father Cardella came from a prominent family in Italy. When 15 years old, in 1846, with his brother who afterward became famous in Rome, he entered the Jesuit order. He spent several years in study and after his ordination taught ethics, scripture and moral theology.

When the Jesuit brethren were expelled from Italy, Father Cardella first went to Spain, were many of the ex-patriated priests took refuge, and after becoming thoroughly familiar with the language, went to South America, where his order was obtaining a foothold. He took a leading part in establishing many Jesuit institutions, a labor fraught with much danger in revolutionary times. Then he went to Mexico, where he continued his work, and finally came to New York 20 years ago.

WILL HOLD MORRO CASTLE.

United States Will Hold and Own Cuba's Most Formidable Port.

New York, July 19.—In addition to the other bases of supplies demanded in the Platt amendment, it is the intention of the administration to permanently retain Morro Castle, overlooking the harbor of Havana. This the Washington correspondent of The World, announces upon the highest authority. It is the opinion, says The World special, to occupy, control and defend the stronghold with United States troops after the government of the island has been handed over to the Cubans.

The plan is to equip the fortress with modern artillery in order that Cuba may be assisted in defending herself against outside interference and also that the United States may thus have guarantee against failure on the part of the Cuban government to carry out its pledges and the terms of the treatment now in course of preparation as between this country and Cuba. Under this treaty the retention of the fort is provided for.

Gold in the Mint Counted.

San Francisco, July 19.—The work of counting the gold coin in the mint here has been completed by experts in charge. The amount inspected and weighed was \$47,140,000. The coin was found intact to the dollar and now has been checked up three times, by as many different sets of men, so there is no possibility of error. The completion of the count sets at rest the theory that a recent shortage of \$39,000 at the mint was the result of a miscount. Nothing whatever was disclosed by secret service agents or Superintendent Leach relative to search for the thief.

MORE RAIN FELL.

Parts of Missouri, Kansas and the Territory Soaked.

Kansas City, July 19.—Good rains following those of Wednesday, fell during Thursday in many places in the southwest, and still more is promised. The area covered was principally in southwestern Missouri, central and southern Kansas and in the central part of the Indian and Oklahoma country. The heaviest fall was in Sedgewick county, in which Wichita is situated and where nearly 2½ inches fell. The rains here increased the prospects of half a crop of corn and went further toward making good pasturage a certainty. However, but little rain is reported in northern and western Kansas and some points are still suffering a drought that has lasted from four to eight weeks.

The rain in Oklahoma covered a large area in the vicinity of El Reno, and brought to an end the drought that has parched that country for more than a month.
